DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art discloses a flexible quadrature coil circuit for use in an electronically commutated dynamoelectric machine for sensing an angular rotational position of a rotor relative to a stator, the stator having a plurality of stator teeth and each tooth having an inwardly facing arcuate surface with a raised projection and a channel disposed along a vertical axis of the tooth.

However the prior art fails to disclose, in combination with the invention, with respect to claims 1 and 2, a plurality of vertically aligned apertures formed in a nonconductive substrate and the apertures configured to receive a corresponding raised projection of the stator tooth so as to releasably secure the substrate to the arcuate surface of the stator teeth and at least one electrical conductor embedded in the substrate in a serpentine pattern and the electrical conductor forming a plurality of spaced apart conductor portions disposed between the vertically aligned apertures and the conductor portions being vertically aligned with and received into the channel of the stator tooth when the substrate is secured to the surface of the stator tooth.

With respect to claim 14, the prior art fails to disclose, in combination with the invention, means for receiving at least one corresponding rib so as to releasably secure the substrate to the arcuate surface of the stator tooth and the continuous electrical conductor forming a plurality of spaced apart conductor portions and the conductor portions being vertically aligned with and received into the channel of the stator tooth when the flexible substrate is secured to the arcuate surface of the stator teeth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julio C. Gonzalez whose telephone number is (703) 305-1563, which will be in effect until 02/02/04. The new phone number that will be in effect AFTER 02/02/04 will be (571) 272-2024. The examiner can normally be reached on M-F (8AM-5PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor Ramirez can be reached on (703) 308-1371. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
